DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kurt Mulville on May 5, 2005. The application has been amended as follows:

In claim 34, "pulsed laser energy," in line 4, has been changed to --laser energy--.

In claim 35, "claim 20" in line 1 has been changed to --claim 34--.

Allowable Subject Matter

Claims 34-48 are allowed.

The following is an examiner's statement of reasons for allowance: the closest prior art of record does not teach or render obvious the claimed matrix containing biomolecule analyte at an ambient pressure greater than 100 mTorr and ionizing the analyte at that pressure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
